I'm a Software Engineer with a background in UI design, passionate about crafting user-centered web applications. With experience across France, Germany, and Poland, I've built scalable front-end solutions and am now diving deeper into AI technologies through an intensive bootcamp. Work experience

- **Senior Front End Developer**
  GIE G5 Languedoc, Nîmes | Since January 2025
    - Developed a React-based CMS to replace a WordPress solution for the Parasanté Online website.

- **Senior Front End Developer**
  Marmalade, Berlin | February 2024 - July 2024
    - Built agency-owned products using React and Next.js.
    - Contributed to client projects using Angular, delivering scalable front-end architectures.

- **Front End Developer**
  Nielsen, Warsaw | July 2022 - January 2024
    - Previously worked as a Product Designer (Jan 2020 – Sep 2021).
    - Developed internal tools in React, TypeScript, and GraphQL.
    - Created a component library based on designs I produced in my earlier design role.

Education background

- **AI Engineering Bootcamp**
  Ironhack, Online | 2025
  Intensive program focused on Artificial Intelligence, Machine Learning, and data analysis.

- **Web Development Bootcamp**
  Ironhack, Berlin | 2021
  Projects included a JavaScript game, an event management app, and an artist booking platform.

- **UX / UI Bootcamp**
  Ironhack, Paris | 2018
  Projects included iOS app design. Covered design thinking, user research, personas, wireframing, and prototyping using Sketch and Flinto.

- **MSc Creative Technology**
  Middlesex University, London | 2016 - 2017
  Final project: Developed a mobile application and website to help users easily find housing.
